

100 evaluator kits were shipped to dentaltown Townies for a Post-Use Evaluation.* Here are their thoughts about Calibra® Bio Cement

90.6% rated GOOD to EXCELLENT overall

84.9% rated VERY EASY TO CLEANUP

73.6% are LIKELY TO PURCHASE

77.4% rated VERY EASY TO USE

77.4% WILL RECOMMEND to colleagues

TESTIMONIALS & REVIEWS (more on reverse side)

“Calibra Bio is a highly flowable, easy to use, everyday cement that has enhanced chemistry to provide a superior seal and resist recurrent decay.”

T. Beitelschees - Toledo, OH

“Any time a better new product provides quality with fewer steps, then it becomes a winner!”

R. Bell - Selmer, TN

“This cement is easy to prepare and even easier to clean up. I will use it in a clinical setting with student dental assistants with little fear of cementing error or cement left behind after clean up.”

R. Buksch - Miami, FL

“Calibra [Bio Cement] is a great bioactive cement option for zirconia and lithium disilicate crowns. I appreciate the easy clean up and ease and speed of use!”

O. Patel - Scottsdale, AZ

“Great cement that does everything it says it does. No sensitivity since it is one of the few basic cements on the market. Very easy to cleanup and use.”

C. Tran - San Luis Obispo, CA

“Best new product I have found this year.”

P. Gershenson - Great Neck, NY

“It’s a step into the future of crown cementation.”

J. DeFilippo - Wethersfield, CT

MOST LIKED HANDLING FEATURES:

- **37.7%** Requires no priming, silane, bonding agent so it is faster since less steps are needed
- **26.4%** Very easy cleanup
- **17.0%** Good flowability & consistency
- **13.2%** Hydrophilicity - works well in the oral environment
- **5.7%** Other

Top concern when switching to a new conventional cement:

1. Sealing/Marginal Integrity of new cement (#1, about half of responses)
2. Moisture tolerance of new cement
3. Excess cement cleanup of new cement

* The result analysis includes answers from all respondents who took the survey in a 35-day period. N=53
Top brands used by evaluators: RelyX Luting Plus Automix and FujiCem2 automix
Calibra Bio cement was used mostly on Zirconia crowns for an average of 5.66 procedures and 4.75 patients.

TESTIMONIALS

“Very nice product, easy cleanup!!”

M. Albano - Lakewood, OH

“This cement is easy to prepare and even easier to clean up. I will use it in a clinical setting with student dental assistants with little fear of cementing error or cement left behind after clean up.”

R. Buksch - Miami, FL

“This product excels with its consistent gel phase set at 2 minutes, making for an easy cleanup without worry of disturbing the cementation.”

J. Crary - Fort Plain, NY

“Excellent cement that [is] easy to use and no post op sensitivity.”

R. De La Rosa - Parsippany, NJ

“No postoperative sensitivity cement that requires no additional tooth preparation with bonding agent.”

R. Kapmarski - Orlando Park, IL

“Excellent cleanup and marginal seal.”

J. Kim - Surprise, AZ

“Excellent cement that is easy to use & clean.”

S. Kulkarni - McKinney, TX

“It was easy to clean up. Pt did not complain much post op sensitivity after I used this. Overall satisfied.”

J. Ma - Moline, IL

“Just as good as the leading Zirconia cement on the market, but purchasing Calibra leaves you with more cents in your pocket.”

I. Renieris - Chicago, IL

“Great universal cement.”

D. Rosenblatt - Midland Park, NJ

“Excellent viscosity. No patient postoperative sensitivity. Easy cleanup.”

L. Sterling - West Orange, NJ

REVIEWS

“I’m used to using a resin glass ionomer cement due to ease of use and easy clean up and the Calibra Bio was equally as nice to use.”

“Unlikely to have to abort a crown placement procedure due to failure to follow complicated procedures”

“Very easy cleanup and lack of technique sensitivity.”

“Easy to use, easy to clean, and I’m hopeful the chemistry will help minimize recurrent decay.”

“Love the easy clean up”

“Easy to use and no post op sensitivity”

“It was easy to clean up and worked well. Overall satisfied”

“All around great cement, easy cleanup!!!”

“Easy to use. Good working time. Easy cleanup”

“Very easy to use and one of the few basic cements on the market...”

“Overall an easier to use bioceramic cement than competitors”

“I had no issues.”

“Easy to use”

“Liked it!”

“Excellent”

“Love it”
